A Report on National Webinar- “Drug Discovery and Development: Role of Receptors in Basic Biological Research”

Convener: Dr. Anna Balaji

Organizing Secretary: Prof. K. Saravanakumar

Programme Coordinator: Mr. M. Sabareesh

A National Webinar on “Drug Discovery and Development: Role of Receptors in Basic Biological Research” was Organized by Department of Pharmaceutics in association with Institution’s Innovation Council (IIC), SVCP on 28-05-2021 by using Zoom Digital Platform. **Dr. S. Nagarjuna**, M.Pharm., Ph.D., Pharmacy officer, ESIC Medical College and Hospital, Bangalore was the Resource person for the programme.

Welcome note was delivered. The webinar began with a word of appreciation by the respected **Dr. Anna Balaji**, Principal, Sree Vidyanikethan College of Pharmacy. He mentioned the importance of drug discovery and development in the field of Pharmaceutical Sciences.

Mrs. A. Swetha, Assistant Professor, Department of Pharmaceutics introduced the Resource person and moderated the session. The Guest Speaker delivered elaborative talk on “Drug Discovery and Development: Role of Receptors in Basic Biological Research”, the key points were

- Importance of drug discovery and development
- Drug receptors
- Role of receptors.

The session ended with open house discussion, followed by virtual felicitation of the Resource Person **Dr. S. Nagarjuna** by Principal **Dr. Anna Balaji** for his valuable inputs and session.

The Programme was concluded with Vote of Thanks by **Dr. K. Saravanakumar**, Professor and Head, Department of Pharmaceutics who expressed his gratitude towards

the Management for their constant support and encouragement to conduct such enriching Sessions. He further thanked them for their exemplary efforts in providing such platforms helping to reach great heights of success.

The Webinar was very informative and well appreciated by the participants.

Impact Report:

The National Webinar received overwhelming response of 1200 Registrations and 2200 views in YouTube. All the participants were provided with e-Certificate. An Appreciation Certificate was presented to the Guest Speaker.

Introduction of Guest Speaker by Mrs. A.Swetha, Asst. Prof., SVCP

Drug discovery is the process by which new candidate medications are discovered (Medicine, biotechnology and pharmacology)

Historically, drugs were discovered by identifying the active ingredient from traditional remedies or by serendipitous discovery, as with penicillin.
